RE: Workplan - Soil Sampling and Analysis  
Lard Oil Company, Inc.; AI# 32468  
914 Florida Avenue SW  
Denham Springs, Livingston Parish

Dear Mr. Milazzo:

The Louisiana Department of Environmental Quality, Underground Storage Tank and Remediation Division (LDEQ-USTRD) has reviewed the Soil Sampling and Analysis Workplan, dated September 8, 2016. The workplan was submitted by PPM Consultants, Inc. for the collection and analysis of surface soils from residential properties located in and around the Lard Oil Company, Inc. - Denham Springs, Louisiana Facility. The LDEQ-USTRD has no objection to the proposed workplan.

I have been designated as Team Leader for your facility. I will be your single point of contact with the Department for all remediation-related activities dealing with soil and/or groundwater issues through investigation, risk evaluation, corrective action and corrective action monitoring.

Please contact me five days prior to the initiation of the filed work, so that I may provide oversight. Should you have any questions, please contact me at 225-219-3759. Thank you for your cooperation.

Sincerely,

A handwritten signature in blue ink, reading "Celeste Bonnecaze".

Celeste Bonnecaze, Geologist  
Underground Storage Tank and Remediation Division
